Richard Darby, Gabriella Clinkard

020 7466 5000

N+1 Singer  
Aubrey Powell, Tom Smale

020 7496 3000

## **Notes to Editors**

Zytronic is the developer and manufacturer of a unique range of internationally award-winning touch sensor products.

These products employ an embedded sensing element and are based around projected capacitive technology ("PCT"<sup>™</sup>) sensing. PCT offers significant durability, environmental stability and optical enhancement benefits to system designers of touch interactive, industrial, self-service and public access equipment.

During 2012, Zytronic developed new know-how to create mutual projected capacitive technology ("MPCT"<sup>™</sup>) which enables multi-user and multi-touch touch sensing in ultra-large form factor sizes up to 84".

Operating from three modern factories near Newcastle-upon-Tyne in the United Kingdom, Zytronic assembles touch sensors using special glass and plastic materials, in environmentally controlled clean rooms.
